## On The Court

### PLAYER CONTROL

Each player manually controlled on the court is designated by a color circle. For example, Player 1 is marked by a player with a blue circle. Player 2 is marked by a player with a red circle.

### SHOT METER

The Shot Meter will have a designated shot area for each player. To give yourself a better chance at making a shot, release  in the Shot Meter area. A Hot Spot may also appear within the Shot Meter area. The difficulty setting of the game will determine the size of the Hot Spot. If you shot the ball from the Hot Spot, your player will automatically make the shot. The Hot Spot of each player is determined by his shooting range and ability. If the Hot Spot does not appear, you are out of your player's shooting range.

### SHOOTING

For a jumpshot, hold  to jump and to activate the Shot Meter. When the meter bar reaches the yellow line, press  again to shoot the ball. With the shot meter off, your chances of hitting the shot increase when you release the ball at the peak of the jump.

**989 Sports' Tip:** Free yourself from your defender by holding the turbo button (R1) to speed around a defender for an open shot.

### JUMPBALL

When the ball is tossed up for the jumpball at the start of the game, press  to have your center jump for the tip. Use the D-Pad to aim the tip.

### INBOUNDING THE BALL

Press  to inbound the ball. If there is a defender guarding the inbound pass, use the D-Pad to move the player inbounding the ball and pass the ball from a different angle.

### PASSING

Press  to pass the ball. The ball will be passed in the direction the passer is facing. Use Icon Passing to gain complete control of your passing game, allowing you to pass the ball to any teammate on the court. Press L2 to bring up the passing icons. Utilize Icon Passing when inbounding the ball.

### ICON CUTTING

When you need to free a man up for a good look at the basket, press R2 and double tap the icon of a player to have him cut and then receive a pass close to the basket.

### SPECIAL MOVES

Press L1 to utilize special dribbling moves such as dribbling between your legs, behind your back, or using a "cross-over dribble".

### SHOT BLOCK

Time your leap and press  to attempt to block a shot.

## REBOUNDING

Read the angle of the shot to get in the best position for the rebound. Box other players out and press  to time your jump and get the board.

## STEALING

Press  to check the ball handler and reach for the ball to attempt a steal.

**989 Sports' Tip:** Press , to keep the ball away from the defender, making it harder for him to take it away and easier for you to back in for a short jumper.

## DEFENSE

Defense is man-to-man and the computer controls the defenders not under manual control. To take control of the defender closest to the player with the ball, press .

**989 Sports' Tip:** Use Icon Switching on defense to control your favorite player. Press L2 to bring up the switching icons shown above each player. Once the icons are up, press the button that corresponds with the defender you would like to switch to.
